

BITTER ORANGE EXFOLIATOR

INCI: *Citrus Aurantium Amara peel powder*

EXFOLIATORS RANGE

The Exfoliator range from Lessonia offers a vast selection of natural exfoliants, meticulously crafted from plant-based and mineral sources such as shells, fruits, seeds, herbs, spices, and loofah. These exfoliants provide various colours, textures, and degrees of abrasiveness, making them adaptable to different skincare products and applications. Whether for gentle facial scrubs or more robust body exfoliations, these ingredients enhance the natural appeal of formulations by improving skin texture, promoting radiance, and supporting cell renewal.

PROPERTIES

Bitter Orange Exfoliator is a natural exfoliant derived from the peels of bitter orange, that are rich in essential oil known for its toning properties, along with bioflavonoids and vitamin C that offer strong antioxidant benefits.

These bioflavonoids have demonstrated powerful effects in improving capillary permeability, making them a valuable addition to skincare formulations.

After grinding, the particles are carefully sieved to create exfoliating grains of varying sizes, ranging from 1000 to 200 µm.
