

GRAPE CAKE EXFOLIATOR

INCI: *Vitis Vinifera* seed powder

EXFOLIATORS RANGE

The Exfoliator range from Lessonia offers a vast selection of natural exfoliants, meticulously crafted from plant-based and mineral sources such as shells, fruits, seeds, herbs, spices, and loofah. These exfoliants provide various colours, textures, and degrees of abrasiveness, making them adaptable to different skincare products and applications. Whether for gentle facial scrubs or more robust body exfoliations, these ingredients enhance the natural appeal of formulations by improving skin texture, promoting radiance, and supporting cell renewal.

PROPERTIES

Grape Seed Exfoliator is a natural scrub made from upcycled grape seeds sourced from an organic vineyard in the Anjou region.

The seeds are cold-pressed to extract high-quality oil, and the remaining press residue is transformed into finely ground exfoliating particles.

These particles offer gentle mechanical exfoliation, perfect for removing dead skin cells and promoting cell renewal. Rich in polyphenols, this exfoliant also protects the skin against free radicals, helping to prevent signs of ageing and maintain a radiant, youthful appearance.
