

LITHOTHAMNIUM EXFOLIATOR

INCI: *Lithothamnium Calcareum powder*

EXFOLIATORS RANGE

The Exfoliator range from Lessonia offers a vast selection of natural exfoliants, meticulously crafted from plant-based and mineral sources such as shells, fruits, seeds, herbs, spices, and loofah. These exfoliants provide various colours, textures, and degrees of abrasiveness, making them adaptable to different skincare products and applications. Whether for gentle facial scrubs or more robust body exfoliations, these ingredients enhance the natural appeal of formulations by improving skin texture, promoting radiance, and supporting cell renewal.

PROPERTIES

Lithothamnium Exfoliator is manufactured from red calcareous seaweed.

Lithothamnium belongs to the family of red algae. It takes the form of small skeletons resembling coral. These fragile branches are made of limestone impregnated with mineral elements and trace elements (mainly calcium and magnesium), secured from seawater. It presents a prominent porosity which increases the availability of trace elements.

GENTLE EXFOLIANTS
WITH A WIDE VARIETY OF COLOURS AND TEXTURES

APPLICATIONS

Stable in all formulations, including aqueous formulations, except acid pH.
Easy to maintain in suspension.
