

# RICE HUSK EXFOLIATOR

INCI: *Oryza sativa hull extract*

## EXFOLIATORS RANGE

The Exfoliator range from Lessonia offers a vast selection of natural exfoliants, meticulously crafted from plant-based and mineral sources such as shells, fruits, seeds, herbs, spices, and loofah. These exfoliants provide various colours, textures, and degrees of abrasiveness, making them adaptable to different skincare products and applications. Whether for gentle facial scrubs or more robust body exfoliations, these ingredients enhance the natural appeal of formulations by improving skin texture, promoting radiance, and supporting cell renewal.

## PROPERTIES

Rice Husk Exfoliator is a 100% natural exfoliating agent derived from upcycled rice husks, **naturally concentrated in plant-based amorphous silica**. The material provides a controlled, non-abrasive exfoliating action, ideal for sensitive or frequent-use applications.

Its **intrinsic whiteness**, resulting from the high silica content, offers both aesthetic appeal and formulation flexibility, particularly in systems where visual purity is valued. Unlike crystalline silica, the amorphous form ensures **safe topical use**, with no associated inhalation risks.

The exfoliant is stable, fully biodegradable, and compatible with a wide range of rinse-off and leave-on formats.

GENTLE EXFOLIANTS  
WITH A WIDE VARIETY OF COLOURS AND TEXTURES

## APPLICATIONS

Stable in all formulations, including aqueous formulations.

## TECHNICAL DATA

APPEARANCE	POWDER
COLOUR	WHITE
FRAGRANCE	NONE
NATURALITY INDEX	1
