

# ROSEHIP EXFOLIATOR

INCI: *Rosa Canina* fruit extract

## EXFOLIATORS RANGE

The Exfoliator range from Lessonia offers a vast selection of natural exfoliants, meticulously crafted from plant-based and mineral sources such as shells, fruits, seeds, herbs, spices, and loofah. These exfoliants provide various colours, textures, and degrees of abrasiveness, making them adaptable to different skincare products and applications. Whether for gentle facial scrubs or more robust body exfoliations, these ingredients enhance the natural appeal of formulations by improving skin texture, promoting radiance, and supporting cell renewal.

## PROPERTIES

Rosehip Exfoliator is a natural exfoliant made from the fruit of wild roses, particularly *Rosa canina* (dog rose). These rosehips, typically bright red or orange, owe their colour to antioxidants like lycopene and flavonoids, which the plant synthesizes to protect against harsh winter conditions.

The exfoliant is created by crushing and sieving the rosehip fruits to achieve the perfect exfoliating particle for skincare formulations. This ingredient pairs well with rosehip oil, known for its protective and regenerating properties.

GENTLE EXFOLIANTS  
WITH A WIDE VARIETY OF COLOURS AND TEXTURES

## APPLICATIONS

Not stable in aqueous forms.  
Should be used in anhydrous forms only.  
Easy to maintain in suspension.

## TECHNICAL DATA

APPEARANCE	POWDER
COLOUR	ORANGE TO PINK
FRAGRANCE	ROSEHIP
AQUEOUS GEL STABILITY	ABRASIVENESS AND COLOUR CAN CHANGE
NATURALITY INDEX	1
